Interior

We Judedon Technical Services a interior designers in Dubai, specialize in interior design in Dubai with some of the landmark projects including Dubai Head Office in UAE. Our service in interior designing is highly personalized and comprehensive involving our customers in the creative process. Our designs stand the test of time incorporating the future concepts in to the same.

We approach projects in a much more collaborative way together with our clients. Our inspiration derives from values that our clients want to project through the interior design. It can vary from simplicity to complexity. Our services range from conceptualization to completion. We deliver a well-crafted design with attention to details through the entire structure and design.

Interior

Our process brings out the creativity within our team to be able to come out with some creative, imaginative, practical and comprehensive interiors. Whether you are looking for a place for living, for work, for play or for hospitality we have some of the best ideas in town. Our comprehensive portfolio is the evidence for our work.

We embed the aesthetic beauty and visual elegance in our interior designs that balance with rational structure and easy mobility. If you are thinking of making your house a home, or your office space in to an elegant space talk to Judedon Technical Services, we will make your dream come true.

Landscaping

Our planting plans reflect our specialist skills and an in-depth understanding of the art of design combined with our expert knowledge about how to cultivate plants. Judedon Technical Services can provide you with planting plans that you implement yourself or we can give you a complete planting and maintenance service. We can also supply and install robust large or customized planters and pots for commercial sites UAE wide, including car parks, foyers, cafes, restaurants, office blocks, hotels and footpaths.

Hedges can very quickly get out of hand, particularly formal hedges. To look their best they need to be maintained on a regular basis. Or, if you prefer, we can provide a one-off trimming and shaping service. We offer expert professional care for all hedge types.

Landscaping

Paths, patios and driveways form essential elements in a residential garden. Creative design, sensitive selection of materials, construction and drainage knowledge should all combine to provide solutions that are both practical and attractive, formal or informal. Judedon Technical Services, can construct your paths in the most appropriate material for your garden type.

Patios provide external useable space and can be created to complement and enhance your alfresco living. They can be used to create intimate, private areas within a garden.

Judedon Technical Services's thorough understanding of the building regulations, material selection and our attention to detail and good design combine to ensure decks and boardwalks are practical, safe and attractive.

Swimming Pool

Judedon Technical Services has specialized not only in residential & commercial swimming pools and spas but ponds, fountains and water features. Here at Judedon Technical Services, our clients are guaranteed to have the utmost one-of-a-kind project. Of all the extensions that you can install to your home and garden, few things are more beautiful than a well-designed and well-kept swimming pool. Such a pool will not only look impressive, it will also add value to your home, while at the same time providing you and your family with hours of fun and relaxation.

We are expert contractors for the installation of unique new gunite and hand-packed concrete swimming pools, as well as the renovation of existing pools that may have become run-down throughout the years. This versatility allows us to give each and every one of our clients the exact the pool they desire, be it through the process of building a brand new pool, or by renovating an existing pool, making it more impressive and beautiful than ever before.

Swimming Pool

Please get in touch for our FREE and completely no obligation design consultation. If you are in search of a swimming pool contractor capable of installing a uniquely designed pool, or one that is able to give an existing pool a new lease on life, you have come to the right place!

Our expert design team will take your pool design aspirations and bring them to life. With a large number of bespoke pools already installed around Dubai, we are confident you'll have a pool to enjoy and entertain your family for many years to come.

3D Design

Our client's needs are the first step in our process. We focus on identifying your project goals and design aspirations; from there we interpret your ideas and bring them to life. We concentrate on producing a carefully crafted design package that brings clarity to the project's process and implementation.

After preliminary design meetings and approvals, we produce detailed drawings that can be submitted to you, your building or community management, and those involved with your project. Once approved by all the necessary parties, construction commences.

3D Design

Because we are solely responsible for your project – not just how the end result looks, but also its cost and time completion, this reduces overlap, unnecessary costs and confusion, since there is only one team working towards the same goal – a stunning project that exceeds your expectations

Our ultimate goal is to provide you with a landscape that exceeds your expectations. By having a complete team focused on delivering the best possible customer service, the best results are realized.

Garden Maintenance

The landscape you poured time and resources into requires professional care to keep up its health and appeal. Judedon Technical Services. Landscapes specializes in maintenance for even the most complex of sites. Together, we can design a program that is right for your property or site.

If your dream garden has just been completed, you want to be confident that it will look just as special in years down the line, it's vital to ensure that the quality and integrity of the design is retained as your garden matures.

Pool Maintenance

Judedon Technical Services. offers a full range of pool services in the UAE and beyond for anyone managing public or private pools. Proper maintenance involves regular cleaning, balancing the water chemicals and monitoring structural issues, we can provide everything you need to run a fun, clean, and safe swimming environment.

We will help you ensure that your pool is operating at peak efficiency. Our initial review and management analysis will help us get an understanding of your pool's machinery, structure, documentation, and staff schedules so we can efficiently assume management.

Pergolas

If you are looking for classic luxury and an incredible addition to your backyard, these pergolas are the way to go. Judedon Technical Services. pergolas will give your backyard an elegant design as well as a warm inviting character.

Extend your outside living and add one of Judedon Technical Services's bespoke pergola's. Our custom-made pergola's will ensure your family have the right amount of shade and privacy from the outside world. The ultimate in outdoor snugs.

Green Walls

Judedon Technical Services. artificial trees are premium quality, made using top quality silks, plastic and latex to ensure they look lush and healthy for many years. The foliage on our trees is made from silk polyester and the trunk is made from a hard durable plastic. The foliage used has been made inherently UV stable which means it is suitable for outdoor use and has been protected against fading.

Judedon Technical Services, green wall foliage panels are UV stabilized which means they are suitable for outdoor as well as indoor use. Artificial vertical gardens are perfect for making a statement wall and bringing a botanical feel to your space. If you have any unsightly walls this is a perfect way of screening the area and transforming into a spectacle!

Outdoor Kitchens

Judedon Technical Services's outdoor kitchens will add life, warmth and a delightful feature to your outdoor entertainment area, Built to complement the style of your garden, outdoor fires can be either gas or wood-fired.

FIRE FEATURES

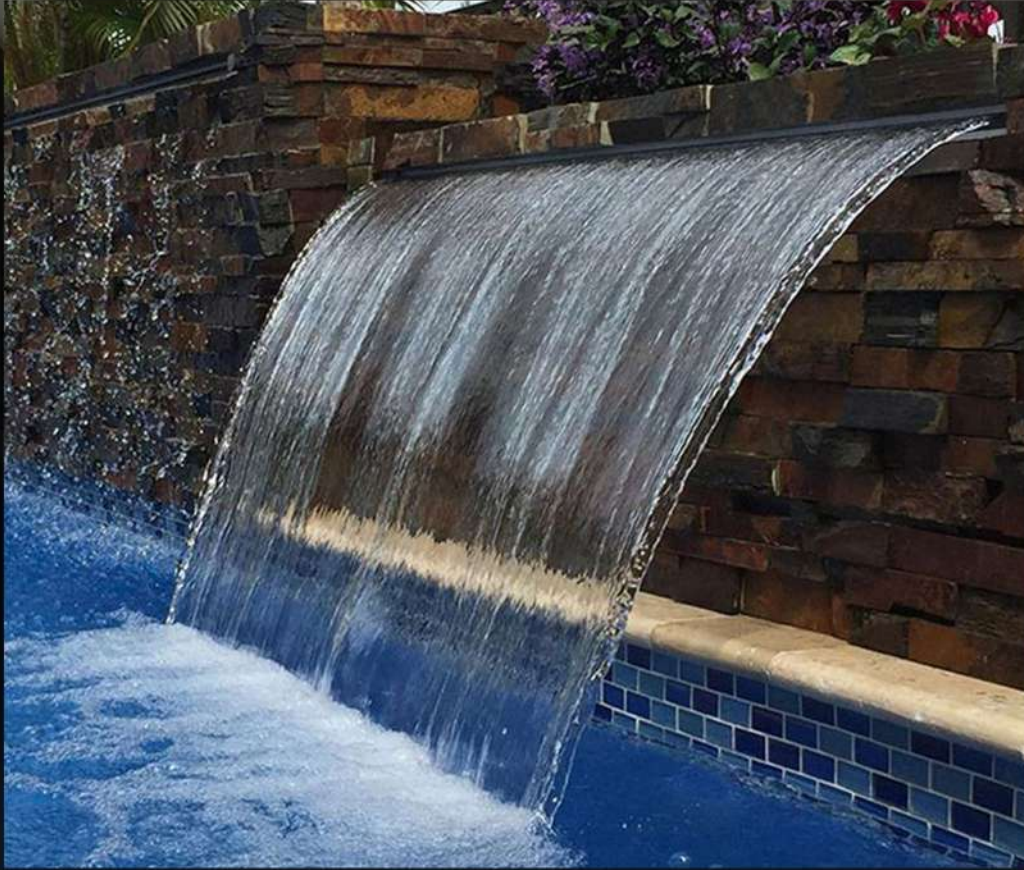

Outdoor Kitchens

Pizza ovens provide both food and fun for the whole family. Judedon Technical Services. can install off the shelf units or create an oven to suit your needs. Gas flares can provide a decorative feature and focal point for a garden. When placed adjacent to a pool, gas flares can create interesting reflections.

Judedon Technical Services. creates functional work areas and comfortable spaces that encourage life to move outdoors. You choose the design, shape, size and components that best fit your needs. We can build anything from a small barbecue island to a custom designed entertainment center complete with grill, side burner, sink, refrigerator, bar center, storage areas and more.

Water Features

There's landscaping and then there is luxury landscaping. No matter how simple, how affordable or how easy your water feature is to install, it instantly takes your landscaping from beautiful to extraordinary.

At Judedon Technical Services., our team is knowledgeable and experienced when it comes to designing and building custom water features perfect for every garden space across the UAE.

Outdoor Furniture

Rehau® & Viro®, are outdoor rattan products which we use in our furniture. Rehau® & Viro®, for example are a superior quality outdoor rattan fiber which uses a polyethylene compound to create a fiber that looks amazing and has incredible characteristics for outdoor extremes, in even the toughest of climate.

Sunbrella® fabrics offer a perfect complement to a large number of our outdoor furniture pieces for cushions and other fabric areas. The fade and rot resistance of Sunbrella® fabrics is just a small part of the benefit of this wonderful fabric.
